I have been in contact with the Bureau of Prisons and they are aware that my recommendation was genuine. I am not empowered to alter or modify your sentence in any way, nor can I issue any directive to the Bureau of Prisons regarding the manner or location of your incarceration. The recommendation that the BOP understands that I have made is the most I am empowered to do.

Mr. Jeffrey Powers, Administrator  
F.P.C. Danbury

Subject: U.S.A v. Mordistine Alexander  
Case No: Cr. 08-760

Dear Honorable Judge Ross:

I have received your recommendation about my halfway house placement in conformance with the Second Chance Act. Thank you for the recommendation - I truly appreciate your support.

Unfortunately, I am forced to write to you again. On August 4<sup>th</sup>, 2010, I met with F.P.C. Danbury's Camp Administrator, Mr. Jeffrey Powers, and my Case Manager, Mrs. Wattree to review my case and potential halfway house placement. I brought the document that I received from you to the meeting. At the meeting, Mr. Powers refused to believe that the Court issued the document, and as a result, I am forced to write to you to request that you write a letter to the FCI Danbury Warden, Ms. Maureen Baird, with your recommendation. I sincerely apologize for adding to your work load, but as you are aware, this is a critical issue for me.

When I left the August 4<sup>th</sup> 2010 meeting, my halfway house placement was designated as 1 to 90 day. To reiterate Mr. Powers concerns that he expressed at the meeting:

- ① The document could have been cut, paste and forged, because neither he nor the warden had received a copy directly.
- ② The recommendation from the judge is not specific enough. What is the maximum specified? What is the meaning of Community Confinement?
- ③ Is the judge modifying the sentence? If so, the Judgement and Conviction needs to be modified and sent to him or the warden.

As you can understand, I am frustrated by the BOP's response and, I do view Mr. Powers concerns as "red herrings" to avoid consideration of the recommendation. Ideally, I would request the Court to split my sentence with the last 12 months of the sentence served in home detention.

Even with Mr. Powers concerns addressed with a re-issued recommendation, I face an uphill battle in receiving halfway house beyond 1-90 days, if indeed I receive that!

Again, Judge Poss I apologize for adding to your workload, and I thank you for your continued support and consideration.
